

The Kingdom C&T marshal has been authorized by the Earl Marshal to perform C&T Marshal Authorizations in Calontir. Anyone wishing to get a marshal's authorization should follow the steps outlined below.

1. The Person who wishes to authorize contacts Kingdom C&T Marshal.
2. The KC&TM is responsible for ensuring the MIT meets the Society regulations for a marshal. The KC&TM should stress courteous behavior in marshaling. The MIT doesn't have to get all his training from KC&TM, but is the person the MIT reports to about his marshaling training.
3. When the KC&TM feels the MIT has completed these things in a satisfactory manner, he grants the authorization. If the MIT fails to complete the training, he fails the authorization.
4. The MIT may contact the Earl Marshal if they feel they have grievance or cause against the KC&TM.
5. An Authorization form is filled out and the authorized marshal's card is marked and signed by the KC&TM. The paperwork is filed with KEM and deputy of cards.
6. The authorized marshal is then free to become a warranted marshal after fulfilling those obligations. To become warranted you must contact the Earl Marshal.

Marshals in Training (MITs) are people who are working on getting a Marshals Authorization. They are not actually marshals yet but may assist the Marshal in Charge at events to further their training. MITs report on their activities directly to the KC&TM who tracks their progress towards receiving their Marshals Authorization.
